1. Program Purpose/Description: (the following description should not exceed 10 lines of text)

RACSB exists to provide individualized, effective, flexible, and efficient treatment, habilitation, and prevention services in the most accessible and integrated yet least restrictive setting possible. RACSB draws upon all available community resources along with people's natural support systems (family, friends, work) to ameliorate the effects of mental disabilities, encourage growth and development, support recovery and self-determination, and assist individuals to realize their fullest potentials. RACSB serves as the single point of entry into the publicly-funded behavioral health services for Planning District 16, including access to private and state psychiatric hospital services through preadmission screening, case management, and coordination of services.

2. Justification of Need: (Please state clearly why this service should be provided to the citizens of Stafford County and why the Board of Supervisors should consider this funding request. If this is a new program, be sure to include the benefit to the County for funding a new request. The following should not exceed 10 lines of text, and should include the most recent data available.)

The Behavioral Health programs and services provided by RACSB are a lifeline to persons with mental disabilities and their families. Many of the persons we serve are unable to pay the cost of private behavioral healthcare and depend on RACSB for those services. Inpatient, Outpatient, Case Management, Day Support and Residential services offered by our agency are often the only option available to families residing in this area. In cases where RACSB does not directly provide a particular service, purchase of service agreements are developed with other public and private providers locally and throughout Virginia. The mental health programs and services offered by our agency touched the lives of 7,773 people in FY 2013 and 2,218 of these individuals resided in Stafford County.

3. Target Audience: (The following should describe the specific population targeted by the program and should not exceed 5 lines of text.)

The Rappahannock Area Community Service Board Mental Health Program serves all citizens of Planning District 16 in need of public behavioral health services.

<u>Partner Agency Funding Application</u> <u>FY2015</u>

 Service Area: (Please describe the program's intended geographic service area. This may include entire regions, localities, or specific schools, neighborhoods, etc.)

The Rappahannock Area Community Service Board serves the citizens of Planning District 16 which includes the Counties of Caroline, King George, Spotsylvania and Stafford and the City of Fredericksburg.

5. Service Delivery: (Please state the geographic location of the service, the duration and frequency offered to the clients.)

The Rappahannock Area Community Service Board is a regional agency operating Mental Health Outpatient Clinics in all of the localities of Planning District 16. The Mental Health services available to the citizens of Planning District 16 include Inpatient, Emergency, Outpatient, Case Management, Crisis Stabilization, Day Support and Residential Services. Access to inpatient and jail based services is also provided. Generally, services are available Monday through Friday from 8:00 A.M. until 7:00 P.M. on an as needed basis. Emergency, Crisis Stabilization and some Residential services are available 24-hours a day, 7-days a week.

6. Client Fees: (Please describe the fees clients must pay for the services provided in this program, and how those fees are determined.)

Client fees are based on ability to pay using a sliding scale adjusted by family size and earned income. Persons served with health insurance, but unable to pay their deductible or co-pay, are offered a deferred payment plan based on ability to pay. No client is refused service due to inability to pay.

7. Budget Information: (Please complete the following chart with the financial information for this program. In each area include the dollars specifically allocated/requested for this program.)

Please indicate, in detail, reasons for increases or decreases in the amounts requested for FY2015. Include whether these changes come from increases in personnel, benefits, or operating expenses. If an increase is being requested, please describe the impact not receiving an increase would have on the program. In particular, please note if any increase is sought for new positions or personnel, please explain in detail.

The FY 2015 Budget is based on level funding for state and federal revenue sources. RACSB is requesting a 2.0% increase in local funding to help offset a 2% Cost of Living increase for Mental Health Emergency Services and Outpatient staff. Staff has only had one scale increase of 2% since November 2007. Not providing cost of living increases cause high turnover rates and makes it difficult to fill vacant positions. This results in waiting lists for services. RACSB is requesting additional local funding from Spotsylvania and Stafford Counties to partially offset the salary and benefits cost of one (1) FTE, full-time Child and Adolescent Therapist or Clinical Psychologist in each locality. Currently RACSB does not have sufficient clinical personnel to meet the increased demand for child and adolescent therapy services in these localities and additional staff would avoid having to develop waiting lists for these services.
