

Prince William County
PUBLIC SCHOOLS
Providing A World-Class Education

DATE: November 2, 2018
TO: The School Board
FROM: Steven L. Walts, Superintendent of Schools (As Prepared By: Rita E. Goss, Associate Superintendent for Student Learning and Accountability)
SUBJECT: Proposed Career and Technical Education (CTE) Comprehensive Plan

RE: Yes (am)

On October 24, the Office of Student Learning presented the Superintendent's Staff with a proposed CTE Comprehensive Plan. The Superintendent's Staff took action to approve the CTE Comprehensive Plan, which is essential to strengthen current programs and implement new course offerings at the middle and high school levels. When developing this proposed plan, the following were considered: student interest, Virginia Department of Labor market data, Prince William County Economic Development, state of Virginia and national career projections, local community organizations, and business partners. The attached maps identify the current and approved programs at our middle and high schools. The approved plan is dependent upon funding and facility space.

Should you have any questions, please contact Kenneth Bassett at 703.791.7253.
