

Congressman Jennifer Wexton, PWC Board of Supervisors and Planning Commission,

Republican candidate Hung Cao's flyer below shows he is just another cog in the PWC just-say-NO Republican Party which stands

- To Maintain an exclusionary zone
- Against property rights
- Against increasing our commercial tax revenue
- Against supporting our Prince William schools, student, teachers, employees, and first responders.

The Republicans will INCREASE our reliance on residential taxes because they refuse to take advantage of the opportunity to enhance our commercial tax rate, as Loudoun County has done for the last 25 years.

All PWC Republicans can say is NO, NO, NO and Hell NO to solutions.

The tide has turned. The Democrats are our visionary leaders who actively seek solutions, rather than just trying to get elected, and are for supporting and enhancing our commercial tax base. They understand the importance of reducing our residential taxes, supporting PWC working families, teacher pay raises, and improving our schools to raise the educational future of our students.

In the past two years our BOCS have done more for PWC than the Republicans did in 15 years! The Democrats of PWC have shown they recognize the problems and disparities, and make decisions for the betterment of ALL. Our huge increases in population are mainly comprised of the middle and lower economic classes, not the wealthy. The Democrats see a problem and they take action.

I am a first generation US Citizen, my parents immigrated from Egypt because my father always said "in America they don't steal your land". The Rural Crescent stole our property rights 23 years ago and Republican boards have kept this exclusionary zone alive and well. PWC can no longer live in the dark ages.

The PW Digital Gateway is a once in a lifetime opportunity to improve the lives of all PWC citizens and give them a pathway to middle class. The approval will bring billions in investment and commitments to create hundreds and hundreds of acres of permanent, PUBLIC open spaces and parks. Why would we send away billions from our schools, teachers, children?

Once again PWC is treated like we are "on the wrong side of the tracks".

Mr. Cao – YOU ARE ON THE WRONG SIDE OF THE ISSUE; You are involving yourself in our local land use issues which you have no knowledge of . You are spreading misinformation and telling PWC we cannot have EXACTLY WHAT HAS MADE LOUDOUN COUNTY THE RIGHTEST COUNTY IN THE COUNTRY AND GIVEN YOU AND YOUR FAMILY ALL THE BENEFITS YOU HAVE TODAY.
